Putting passengers first - the digital journey

Your invitation – register today

Digital Railway Industry Conference
25 (evening only) & 26 June 2019
University of Birmingham, Edgbaston

Book your place
>> [Register here](#)

You are invited to take part in the only joint rail industry event discussing the operations, impact, innovations and future of railway digitalisation; putting passengers first – the digital journey.

The event will begin on 25 June with an evening reception at 18:00 with presentations from industry leaders, followed by a full day's agenda on 26 June where you'll hear from those who operate our railway, innovate within industry and are planning the future for the UK railway digital transformation.

Attendance is free of charge. The event will encourage delegates to learn and contribute to what must be at the centre of all the rail industry's activities - **delivering a better service for passengers and freight users.**

We are presented with a great opportunity - let's get this right, so that our railway customers see early and clear benefits in terms of increased rail system capacity and resilience, and reduced reactionary delays whilst train operators and their owning groups will see greater certainty around future costs, and increased customer satisfaction.

Together we can achieve this with early and constructive engagement with the wider supply chain, and a sustained partnership between train operators, local Network Rail routes and local digital rail deployment projects.

Registration is open now via the RIA website (you do not have to be a RIA member to register). Please use the link above or here to book your place.

We look forward to meeting you in Birmingham, at what's going to be our best conference yet!

The Digital Railway Industry Conference event team.

 #thedigitaljourney #digitalrailway

The conference brings together around 300 delegates including rail operators, suppliers, and other industry organisations in the rail sector.

- Hear from senior rail industry leaders
- Exhibitions & networking
- Reception drinks, evening meal and lunch included

The University of Birmingham is also offering tours of the Digital Centre of Excellence and will be explaining how the University supports UKRRIN. So, book now to find out more.

Already confirmed speakers at the event include:

- **Andrew Haines**, Chief Executive, Network Rail
- **Alex Burrows**, Managing Director, BCRRE, University of Birmingham
- **Prof. Andy Schofield**, Pro-Vice-Chancellor and Head of the College of Engineering and Physical Sciences, University of Birmingham
- **Stuart Calvert**, Interim Managing Director, Group Digital Railway, Network Rail
- **Meliha Duymaz**, Route Managing Director, Network Rail

Are you are interested in exhibiting?

As part of the conference, we will be encouraging new entrants and innovators to demonstrate/exhibit with a focus on delivering better performance and improved efficiency.

Please send your expression of interest to
>> milda.manomaityte@riagb.org.uk .

Exhibitors will be selected based on applicability to the event topic.
