A Movement for Change

Rebuilding Futures Alliance:

We believe beyond Government, it's business that has the power to affect positive change in society.

Reoffending costs the UK £18.1 billion annually, impacting communities and public services. With the prison population set to exceed 100,000 by 2028, tackling recidivism is urgent.

The RFA unites charities and social enterprises to deliver:

- Opportunities for employers: A proven candidate pipeline.
- Funding for charities: Less reliance on fundraising.
- Shared best practices: Collaboration for success.
- Data insights: Showcasing social and economic impact.
- Demonstrable: Social Value Impacts reaching far beyond those engaged

Supporting success through tracking.

- **Candidate journey monitoring:** RFA's tracking system monitors and supports candidates from application throughout their employment journey.
- **Business insights:** Employers can monitor their social value impact.
- **Rich data-driven reporting:** Understand why candidates were either successful or unsuccessful, support successful candidates during their employment and increase the possibility of repeating the positive outcome with future candidates.
- **Equality, Diversity and Inclusion (ED&I) insights:** Shape future strategies.
- **Influencing Policy:** Insights will improve processes to influence positive change.
