Supporting Rail Clients to Gain a Technical and Commercial Edge

FRAZER-NASH CONSULTANCY
A KBR COMPANY

About us

We are a leading business change, project delivery, systems and engineering technology company

We help our clients deliver business improvements, innovative engineering and technology solutions to make lives safe, secure, sustainable, and affordable

Known for solving complex systems problems, we combine rail expertise with multi-sector good practice

Our recent work

- The industry’s first network-wide train delay prediction tool
- Rail sector’s first predictive possession optimisation tool
- Rail industry's leading depot model
- Leadership in SWR Class 442 Modification
- Strategic business advisor including supporting the establishment of the Siemens bid excellence centre, delivering over 200 bids a year

What can we do for you?
